2. COMMUNICATION:

1. The International Bureau draws applicant's attention to the following inconsistency(ies) between the priority claim(s) appearing in the request and the corresponding indication(s) in the priority document which was received by the International Bureau.

a. Inconsistency with regard to the filing date of the earlier application:

The request indicates: 03 June 2003

The priority document indicates: 06 June 2003

b. Inconsistency with regard to the number of the earlier application:

The request indicates: US 60/476,423

The priority document indicates: US 60/476,423

2. Because the time limit prescribed in Rule26bis has expired, the priority claim may no longer be corrected during the international phase. However, the International Bureau will transmit a copy of the priority document to the designated Offices concerned for their consideration upon receipt of a written notice from the applicant. The matter will then need to be taken up by the applicant directly with each designated Office upon entry into the national phase.

3. It is noted that, due to the expiration of the applicable time limit for correction (see item 2), it is the priority claim(s) appearing in the request which will be, or has (have) been, as the case may be, reflected in the international application as published.
